

In-Car Entertainment –
Radio Selectable Features

MODEL 1998 MY
All
VIN

Issue:

The radios installed in all 1998 MY vehicles contain features that can selectively be turned off or on. These features may not be readily apparent to the customer. If a feature is incorrectly selected, it may cause customer concern.

Action:

If customers with 1998 MY vehicles have radio concerns, check that the correct radio features are selected.

SELECTING RADIO FEATURES

To access the selectable features, simultaneously press the AM/FM button and the tape eject button (Illustration 1 for XK8; Illustration 2 for Sedan Range). The radio will display SET UP MODE. The following set up modes can then be selected and changed in any order, as long as no more than 15 seconds elapses between presets. After 15 seconds the display will clear. If additional mode changes are needed, re-enter the set up mode. To select a feature, press the applicable preset button.

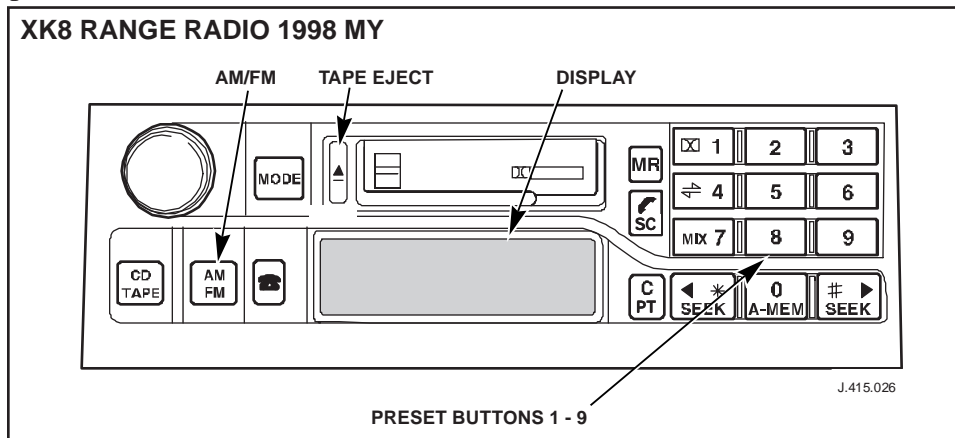

ILLUSTRATION 1

- Preset 1 Press preset 1 to select the market mode to suit the users country and Radio Data System (RDS) ON/OFF. (RDS is being introduced by some radio stations.)
- Preset 2 Toggles the tape head cleaning service reminder off and on. (Should be ON)
- Preset 3 Toggles the clean aerial service reminder off and on. (Should be ON)

Preset 4 Toggles the cellular telephone function off and on. If a Jaguar telephone is installed, turn the telephone function on by pressing the preset 4 button until TEL ON shows on the display. (Should be ON)

NOTE: If a hands free cellular telephone is installed, the mute function must be switched ON.

- Preset 5 TAPE EJE ON/OFF - sets the cassette tape to automatically eject when the ignition key is turned off.
- Preset 6 Not used.
- Preset 7 DIVERSITY ON/OFF - Used when a Diversity Antenna System is connected to the radio. (Should be OFF because the system is not used by Jaguar.)
- Preset 8 AF ON/OFF - (Alternate Frequency) Used when reception problems occur with RDS stations. Toggling AF OFF will eliminate program drop-out on RDS channels.
- Preset 9 Not used.

Warranty Policy

- Changing radio features is not covered under warranty.
- It is the Dealer's responsibility to ensure radio cassette players are properly diagnosed prior to replacement. All units found to be non-defective will be charged back.
